General Service - Energy

Electricity **\$8.61**

This is the cost of generating the electricity you used this period. Usage is measured in kilowatt-hours (kWh) and depends on the wattage of devices you use and how long you use them. The Ontario Energy Board (OEB) sets the cost per kWh and the money collected goes directly to the electricity generators.

Delivery **\$40.56**

This is the cost of ensuring you have reliable power when you need it. Hydro One collects this money to build, maintain and operate the electricity infrastructure, which includes power lines, steel towers and wood poles covering 980,000 sq. km. A portion of this cost is fixed and a portion varies depending on the amount of electricity used.

Regulatory Charges **\$0.54**

The Independent Electricity System Operator (IESO) uses this money to manage electricity supply and demand in the province, which is necessary to ensure that there is enough electricity to meet Ontario's needs at all times.

HST (87086-5821-RT0001) **\$6.46**

Ontario Electricity Rebate **-\$15.81**

Total of your electricity charges **\$40.36**

Shedding light on your electricity statement

To the electricity generators for the electricity you use

Electricity prices are set by the Ontario Energy Board (OEB). Hydro One collects electricity charges and passes them to the IESO. These charges are used to cover the cost of electricity generation.

Energy Saving Tip

Phantom Power

Electronics use energy even when off. Plug them into power bars with timers or auto-shutoff to lower energy use.
